Original Registration Number Retention (V765 scheme)

Before submitting your application, please carefully read all the instructions. An incomplete or incorrect application will be returned to you.

Your vehicle can retain its original registration number if you use the unaltered frame and the machine is largely original – engine, gearbox, forks etc. You must also have supporting pre 1983 documentary evidence linking the chassis number and registration number. The types of evidence the DVLA will accept are listed overleaf.

Your vehicle must be complete and assembled but does not need to be in fully roadworthy condition.

You may wish to ensure that the registration number you are claiming is not already on DVLA's database. Contact DVLA on 0300 790 6802 Or use DVLA form V62 to apply for a V5c.

Once the library has received an approved inspection report, all the paperwork, evidence and photos will be sent to the DVLA.

It is important to note that the final decision rests with the DVLA.

The DVLA are inspecting vehicles at random even if your vehicle has been inspected by a VMCC machine examiner. SGS are a Swiss company who inspect vehicles on behalf of the DVLA and you will be informed in writing if a vehicle inspection is required, you will not be charged. SGS will check that the vehicle exists and the frame and engine numbers are recorded correctly.

Do not use this form to apply for a Statement of Search to support an age-related number application. Download the Statement of Search pack from our website at <https://www.vmcc.net/Library-and-DVLA-Forms> or request a copy.

NB: COMPLETION OF THE WHOLE PROCEDURE CAN TAKE UP TO 12 WEEKS.

INSTRUCTIONS

Your Application should include the following:
